Category:	Sustainability	Policy #	SUS-1

1. Preamble

The University of Saskatchewan Students' Union's value statement articulates that the following principles shall guide the Union in all of its endeavours: integrity, mutual respect, professionalism, service, teamwork and trust, as well as social, economic, and environmental responsibility.

The USSU also honours its relationship with the First Nations and Metis peoples of Treaty Six Territory and in doing so respects and honours the land on which the organization is physically located. In order to ensure that the Union behaves in a responsible and sustainable manner and encourages its members to do the same, the following policy has been created.

This policy exists to standardize and streamline the manner in which the USSU interacts with students, staff, and faculty at the university, the way in which it conducts its own operations, and to articulate mechanisms by which individual students and student groups can qualify and apply for funding for sustainability projects.
