*Council divided themselves into discussion groups to discuss the recommendations for 10-15 minutes.*

Councillor Hassan provided notes on behalf of the professional colleges: she noted that they discussed undergraduate students having the same pay/wage as graduate students. College of Medicine is the only College that gets paid for 3rd and 4th year clinical rotations; and they believed this should be extended to other professional colleges. Discussed having more practice rooms. Some Colleges are allowed to book out time in their sim labs/CLRC (Clinical Learning Resource Centre) to practice skills; they'd like to extend that to other Colleges.

President Goswami asked how many labs students have in Medicine, because they have 100 students. Councillor Onasanya noted that they have 100 students divided between Saskatoon and Regina; about 60 students in Saskatoon. They are in the CLRC about twice a week. But they are also allowed to book outside of class time if they want to practice clinical skills. President Goswami asked how long the wait was. Councillor Onasanya said that she doesn't believe she's encountered a time when she wasn't able to book the lab. Councillor Hassan added that VetMed and Dentistry have their own simulation areas. Councillor Hassan added that they would like to see more diverse individuals within academic advisor / support persons.

Councillor Perrault asked how long they have to submit recommendations. President Goswami responded that he would like all recommendations submitted by Thursday, November 17th.

Councillor Salsbury shared notes on behalf of the group she was in on the following:

- Teaching Assistants are not being paid enough, and there aren't enough Teaching Assistants.
- They agreed with student wage increases.
- International tuition is too high.
- The College of Education doesn't have enough placements.
- Anti-racism, anti-oppression, and safety are extremely important, but the group didn't believe that training modules would translate to change in behaviour / or be impactful.
- Student Spaces and Lounges

Councillor Chavda noted that he has been told there are bureaucracies in place that are the cause for high International student fees, but he did not believe that there is transparency or rationale for high fees for international students.

President Goswami asked what the College of Agriculture and Bioresources students use their lounge space for.
