**1. Call to Order**

The meeting was called to order at 6:00 PM.

**2. Land Acknowledgement**

Chairperson Anees stated the land acknowledgment: As a Council of Indigenous and Non-Indigenous students, we acknowledge that we gather on Treaty 6 territory, the homeland of the Cree, Saulteaux, Blackfoot, Métis, Dene, and Dakota people. We acknowledge the harm that colonial institutions, such as the University of Saskatchewan, have done. We remember that there were centuries of governance and education on this land before the settlers arrived and that these forms of education and governance are continuing today. We honour and reaffirm our relationships with one another and the land that we are on as we work to dismantle the systematic barriers to education that First Nations, Métis, Inuit, and other marginalized people face.

**3. Roll Call/Quorum**

Roll call was completed, and the list of attendees is listed on the first page of these minutes. Quorum was present.

**4. Adoption of an Agenda**

No corrections were made to the agenda.

Move to adopt the agenda.

**USCMotion072: President Mann / Councillor Knox**

**5. Council Address**

Move to enter into informality.

**USCMotion073: VP Singh / Councillor Pooni**

**CARRIED**

**5.1. Introductions**

Chairperson Anees introduced Deputy Provost McDougall and Vice-Provost Cranston.

**5.2. Guest**

**5.2.1. Dr. Patti McDougall - Deputy Provost**

Deputy Provost McDougall gave a presentation on USask tuition and finances:

- The purpose of tuition consultation is to ensure a common understanding of tuition-related matters and to seek feedback on the quality of education offered at USask.

- Rate setting timeline for 2024-25:
  - May - October: tuition comparator analysis; info modules for students
  - November - December: student survey; conversations with student leaders; preliminary discussions with the Board of Governors
  - January - February: conversations with students and Deans, town halls; discuss with governing bodies
  - February: final tuition recommendation from Colleges & Schools
  - March: tuition rates approved by the Provost
  - April: communication to the public.
  
- The top three sources of revenue for USask:
  1. Government of Saskatchewan Operating Grant (Provincial Operating Grant), 35% of total revenue
  2. Student Tuition and Fees, 27% of total revenue
  3. Government of Saskatchewan Other Grants and Contracts, 24% of total revenue.
  
- The top three sources of expenditure for USask:
  1. Salaries and benefits, 70% of total expenses
  2. Operational supplies and expenses, 22% of total expenses
  3. Utilities, 2.8% of total expenses.
  
- Tuition and operating grants are used to fund:
  - academic programs and courses
  - student services
  - improvements in teaching and learning methodologies
  - scholarships and bursaries
  - recruitment and retention of faculty, scholars and researchers
  - and more.
  
- USask is moving into the final year of its Memorandum of Understanding with the Government of Saskatchewan. According to the MoU, the Government of Saskatchewan will not cut USask's operating grant and USask will not raise tuition by more than 4% on programs that are at or above the U15 median cost. USask and the Government of

---

Saskatchewan have begun discussions on a second MoU because tuition predictability is valuable for students.

- This fall, there was a tuition survey for students. The survey asked students what areas they would like to see the University invest and disinvest in. While all 26 items were identified as important for investment, 13 items were identified as the most important; the top three were 1. offer more scholarships and bursaries; 2. increase open access; and 3. improve parking options. Deputy Provost McDougall is dedicated to (1) and (2) and is working with planners to see what can be done about (3). Priorities for disinvestment are harder to determine because responses were more split.
- In 2023-24 USask invested \$73.5M in capital projects and \$18M on maintaining capital assets. Renovation projects include upgrades to various classrooms, electrical infrastructure renewal, elevator renewal program, fire system upgrades, and sustainability initiatives.
- USask has also been investing in student financial aid. In 2022-23 financial aid totalled \$58M. Newer investments include the International Students at Risk Fund and bursaries for international undergraduate and masters students. These new investments are on top of increased and sustained operating funding to student services such as the Student Wellness Centre, Student Affairs and Outreach, Access and Equity Services, and more.

Councillor Salsbury shared her experience of attending last year's Arts & Science town hall. She believes that Deans do not always put much effort into getting students to attend town halls.

- Deputy Provost McDougall noted the Councillor's concern and the importance of giving advance notice.

Councillor Willmann asked about the inefficiency of classroom assignment.

- Deputy Provost McDougall shared that Deans have been encouraged to implement broader use rules. These rules include scheduling classes in a wider range of buildings

and time slots, as well as optimizing non-standard use of rooms.

Councillor Willmann shared that he has a class this term in Convocation Hall, which has no tables.

- Deputy Provost McDougall explained that there were discussions about this arrangement as soon as it was known. The arrangement could likely have been avoided if the class had been moved to a different time slot. USask will work to increase flexibility of time slots so this issue can be limited as much as possible.
- Vice-Provost Cranston explained that his team locks down the schedule in May. But after the schedule has been created, professors and department heads often request changes, and accommodations must be made.

#### **5.2.2. Dr. Jerome Cranston - Vice Provost, Students & Learning**

Vice-Provost Cranston shared that his approach is guided by the principles of equity and justice. Included within his portfolio is the Student Wellness Centre, Gwenna Moss Centre, Student Affairs and Outreach, International Students, Study Abroad Centre, Career Services, and more.

Vice-Provost Cranston believes that student attendance and engagement are important to developing an interactive relationship in learning. His work focuses on enhancing student learning. He is considering whether it would be helpful to have a policy navigator for students. Also, wellness is an important component of quality learning.

President Mann asked Vice-Provost Cranston what his main focus is and how he plans to incorporate student consultation.

- Vice-Provost Cranston explained that TLSE is going through a reorganization that he believes will increase student success, especially for marginalized groups. To incorporate student consultation into this goal, Vice-Provost Cranston will continue meeting with student leaders directly.
- Deputy Provost McDougall added that all the discussions from town halls are collected in a summary document. Also, the University has a student forum, which provides an opportunity for students who are not elected representatives to share their perspectives.

Councillor Knox explained that it is usually student leaders who are the ones helping other students to navigate University policies.

- Deputy Provost McDougall agreed that it is people like the USSU Vice-President Academic Affairs and Academic & Governance Assistant who play a key role in policy navigation. Also important are the Associate-Dean Academics and department heads of each college.
- Councillor Knox suggested that informal interactions with students can provide faculty with genuine insight into student life.

Move to enter back into formality.

## 9.2. 2024-2025 USSU Fees Presentation & Executive Recommendations

VP Mehta gave a presentation on the 2024-2025 fee proposal:

- The USSU is a non-profit organization that collects most of its revenue from fees paid by undergraduate students. All revenue is put back into the Union to support students.
- Approval process:
  - January 20 – fee request.
  - January 25 – USSU analysis.
  - February 8 – USC approval.
  - February 9 – fee submission.
  - March 4 – fee review.
  - TBD – final approval.
- Fees have four main purposes:
  1. Governance and advocacy. Includes advocacy in academic cases, as well as the municipal, provincial and federal levels of government.
  2. Projects and initiatives. Includes anti-racism initiatives and social events.
  3. USSU infrastructure. Maintaining student buildings (Place Riel and the Memorial Union Building).
  4. Grants. Support for student groups and help with facilitating events on campus.
- The USSU collects two types of fees:
  1. On behalf of a service provider
    - a. U-Pass fee, paid to City of Saskatoon
    - b. Health & dental plan, paid to Studentcare
  2. Fees that support the USSU
    - a. USSU student fee
    - b. Student infrastructure fee.
- The USSU health & dental provides a comprehensive package of health, dental, vision, travel benefits to fill the gaps left by medicare and a parent or spouse's plan. In 2023-2024 the plan fee was \$302.74 per student. A proposed 5% increase will raise the fee to \$317.88 per student; an additional \$5.72 per student will be paid out of USSU reserve funds.
- Council has previously discussed the possibility of a new gender affirmation care service being added to the health & dental plan.

---

The cost would be an additional \$9.20 per student added to the \$317.88 proposed for next year. In this case, the USSU would use more of its reserve funds to cover the cost.

- USSU Executive's recommendation: "While we understand that offering GAC [gender affirmation care] is very important as part of our social and ethical accountabilities, it is possibly not the best financial decision for the student body. As such, we recommend waiting 1 year, consulting with Studentcare on data collected from other universities, engaging with more stakeholders and students on campus, and then re-visiting the inclusion of this service."
- There are two options:
  1. Move to increase the health & dental plan fees by 5% to be \$317.88 for the 2024-2025 year
  2. Move to increase the health & dental plan fees by 5% and add gender affirmation care to the plan.

Councillor Ahmed asked what the gender affirmation care covers that is not already covered by the healthcare system.

- President Mann explained that it covers hormone therapy and rehabilitative services.

Councillor Ryu asked if it is possible to opt out of the gender affirmation care cost.

- VP Singh explained that, no, a student cannot opt out of this cost because it is simply an addition to the general cost of the health & dental plan, not a separate fee.

Councillor Knox asked for clarification about what is covered by the gender affirmation care service.

- President Mann shared that it covers up to \$5000 per procedure to a lifetime maximum of \$10,000. Eligible procedures include chest contouring / chest masculinization, tracheal shaving, laser / electrolysis hair removal, vaginal dilators, and vocal surgery. The limitations to the service include a required diagnosis of gender dysphoria, Pay-Direct service is currently unavailable, and the service may not be available to students for the full duration of their gender transition journey.

Councillor Salsbury asked if the gender affirmation care service has been requested by students.

- President Mann answered that many students who visit the Pride Centre would be happy to have the service. The overall number of students who use the service will be small but it will have a big impact on those who do use it.

A vote was held on whether to adopt the first or second option presented by VP Mehta; the first option is to increase the health & dental plan fees by 5% to be \$317.88 for the 2024-2025 year, and the second option is to increase the health & dental plan fees by 5% and add gender affirmation care to the plan. By a vote of eight to five, the first option won.

Move to increase the health & dental plan fees by 5% to be \$317.88 for the 2024-2025 year.

**USCMotion080: President Mann / VP Mehta**

**CARRIED**

VP Mehta explained that U-Pass offers students huge savings because of the USSU's contract with Saskatoon Transit. Without the U-Pass, a bus pass costs \$83 per month; with U-Pass, the monthly cost is only \$25. As part of the contract, the cost of U-Pass is increased each year in accordance with CPI. The cost of U-Pass per student in 2023-2024 was \$190.24. With CPI at 2.30%, the cost for 2024-2025 will be \$194.62.

Councillor Salsbury shared that students who live in college quarters can opt out of U-Pass but students who live in Voyageur cannot, even if they prove they are paying for a parking spot. She thinks students who prove they are paying for a yearly parking pass should be able to opt out of U-Pass.

- VP Mehta explained that there are very strict opt in and opt out rules for U-Pass. Any perceived complaints could be interpreted by Saskatoon Transit as grounds for opening up the contract, which could raise costs for everyone.

Move to increase the U-Pass fee by 2.30% (CPI) to be \$194.62 for the 2024-2025 year.

**USCMotion081: VP Mehta / President Mann**

**CARRIED**

VP Mehta explained that the USSU student fee covers the cost of advocacy and governance, Centres, services, and other administration costs. Because of inflation, VP Mehta recommended increasing the USSU student fee by 5%, from \$111.28 to \$116.84

Councillor Ahmed asked if students have access to the USSU budget.

- President Mann said that transparency is important to the Union and students are able to access its financial statements.

Move to approve increase the USSU student fees by 5% to be \$116.84 for the 2024-2025 year.

**USCMotion082: VP Mehta / President Mann**

**CARRIED**

VP Mehta explained that the infrastructure fee covers the cost of maintenance, planning and design, capital purchases, renovations, and building construction of USSU facilities (Place Riel and Memorial Union Building). The infrastructure fee will remain at \$129.92 for 2024-2025.

Move to maintain the USSU infrastructure fee of \$129.92 for the 2024-2025 year.
